Wall Painting

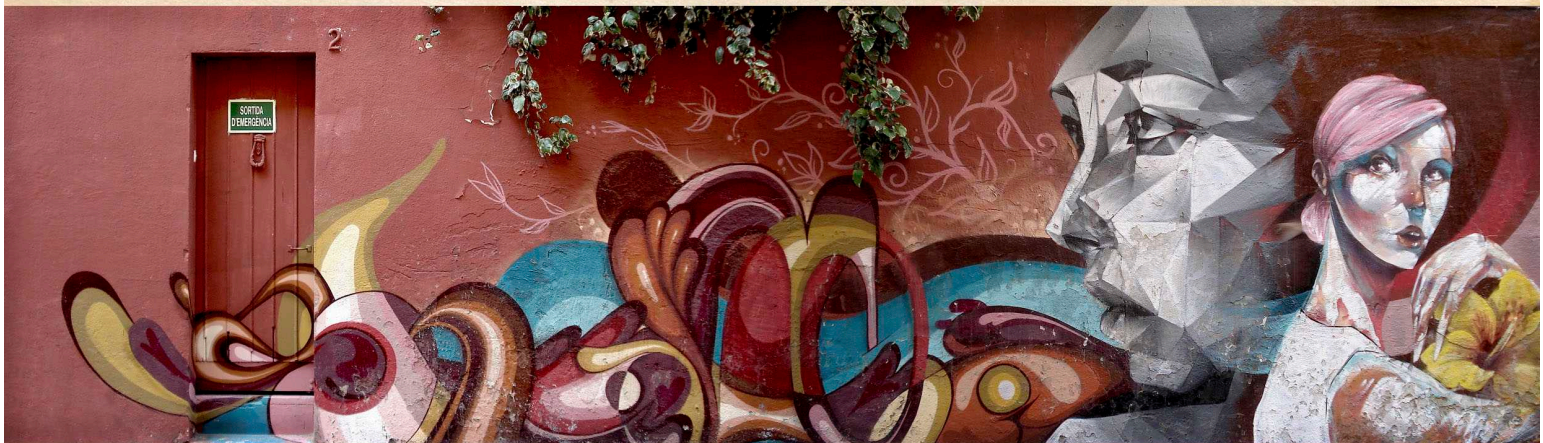

Fine Art

I'm an illustrator based in Barcelona who is highly motivated and passionate about art in general. I have a Fine Art background that led me into wall painting and illustration for many years and some time ago I got interested in Lettering, which I like to mix with my illustrations. I have learned a lot out from this experience as I am also very dedicated to my work. This experience has provided me with strong artistic and technical skills to become responsible and very creative.

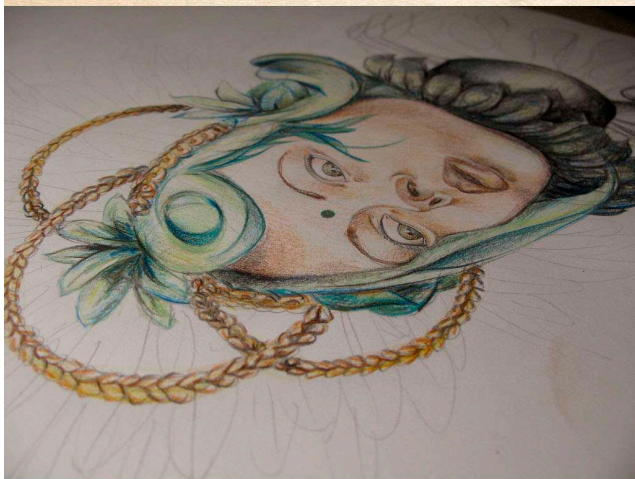

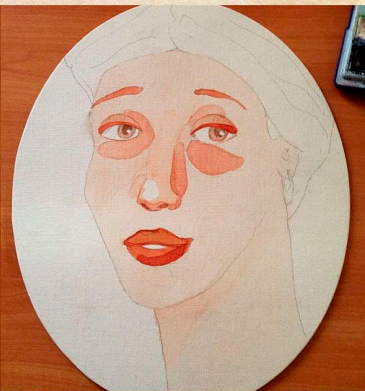

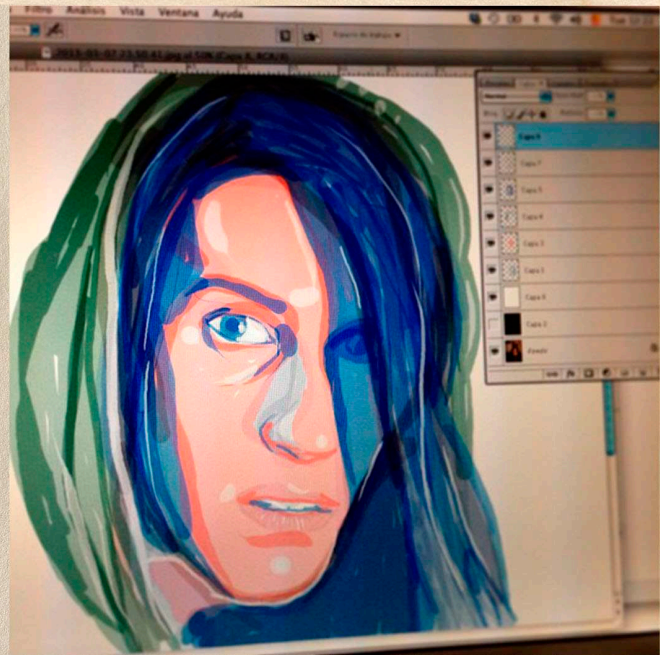

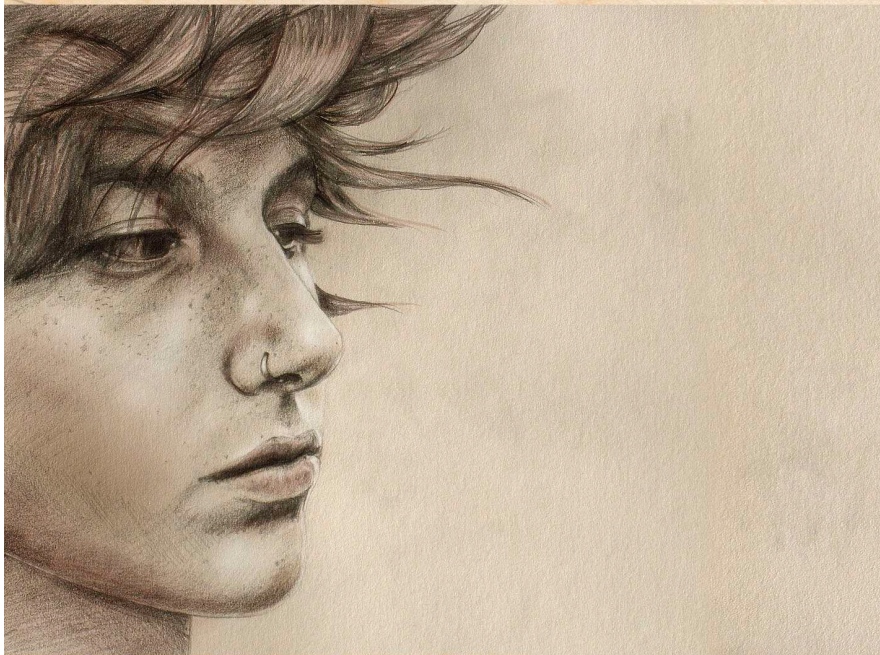

I am part of *Dinamo-Studio*, which develops art projects and design, using traditional and experimental techniques. Here I have worked on illustration, screen printing, painting and I also had the wonderful opportunity to work in a team with other artists including designers, photographers and other illustrators. This gave me a better understanding of the interaction between different fields of art and design and their interdependence; at the same time it helped me to get better at adapting myself to any kind of style and format, although always keeping my essence.
